Skills

- HTML5
- CSS3
- JavaScript
- React.js
- Next.js
- Python
- Node.js
- REST APIs
- SQL
- PostgreSQL
- MongoDB
- Git
- GitHub
- VS Code

Summary

Computer Science Engineering graduate with hands-on experience in Frontend, Software, and Full Stack Web Development. Proficient in HTML5, CSS3, JavaScript, React.js, Python, SQL, and MongoDB. Experienced in building responsive web applications, integrating REST APIs, using Git for version control, and deploying modern web applications. Seeking opportunities as a Frontend Developer, Software Developer, or Full Stack Developer to contribute technical expertise while continuously learning and growing.

Education

University College of Engineering, Thirukkuvilai, Anna University

Bachelor of Engineering - Computer Science and Engineering, CGPA: 8.20

2026

Government Higher Secondary School

High School, 75%

2022

APJM Matric Higher Secondary School

SSLC, 78.5%

2020

Experience

Nexira Solutions

Website Developer Intern

Chennai

2026

- Developed responsive websites using HTML5, CSS3, JavaScript, and React.js, improving cross-device compatibility.
- Designed and executed responsive UI/UX interfaces across 10+ web pages, improving mobile accessibility and cross-browser compatibility.
- Managed source code and deployments using Git and GitHub, contributing to the successful delivery of 2 production-ready websites.

Projects

- [Resource-Efficient-Feature-Extraction-of-Healthcare-Detection-Using-Winograd-Convolution-Algorithm\(Live Project\)](#) Developed a heart disease detection system using ECG signals and images with 1D and 2D CNN models. Performed data preprocessing and feature engineering including normalization and handling missing values. Applied feature extraction and selection techniques to improve model performance and reduce complexity. Integrated the Winograd algorithm to optimize convolution operations and enhance computational efficiency. Achieved high accuracy and real time prediction capability to support faster and reliable diagnosis.
- [Bobby Media Photo Studio Website \(Live Project\)](#) Developed and deployed a fully responsive photography studio website featuring portfolio, gallery, services, booking, and contact pages. Designed and implemented a secure admin dashboard with MongoDB integration for dynamic content and gallery management.
